SUMMARY

I am Zubair Khan, a 7th-semester Bachelor's student majoring in Software Engineering at IIUI. Currently maintaining a CGPA of 3.68, I am a dedicated frontend web developer proficient in HTML, CSS, Bootstrap, and JavaScript. My focus is on advancing my skills in React.js. I am actively pursuing opportunities for an internship/job to further refine my abilities and gain practical experience in web development. Motivated and ambitious, I aim to contribute effectively to a professional team, dedicated to crafting impactful web experiences.

PROJECTS

1. Portfolio Website
I have created my responsive portfolio website, skillfully crafted using HTML5, CSS3, and Bootstrap. It ensures a seamless user experience across all devices, showcasing my work and accomplishments in an engaging manner.

2. Restaurant Website
created another responsive Restaurant website, skillfully crafted using HTML5, CSS3, and JavaScript . It ensures a seamless user experience across all devices, showcasing my work and accomplishments in an engaging manner.

3. Console ATM Machine
I have successfully developed a Console ATM Machine in C++, incorporating Object-Oriented Programming (OOP) concepts. It allows users to perform various banking transactions efficiently and securely.

4. Library Management System
I am proud to announce the completion of a robust Library Management System, meticulously built using the Core Java language, with a strong adherence to SOLID principles. This system demonstrates excellence in design and functionality, facilitating efficient library operations and management with utmost reliability and scalability.

CERTIFICATES

1. Basic HTML and CSS   July - 2023
Achieved proficiency in HTML and CSS through comprehensive OpenWeaver tutorials. Applied knowledge to create responsive projects.

2. Basic JavaScript   July - 2023
Completed Basic JS from OpenWeaver. Mastered concepts through comprehensive tutorials and applied them to create responsive projects

3. HTML5 CSS3 JS AND BOOTSTRAP   August - 2023
Achieved proficiency in HTML5, CSS3, JS, and Bootstrap through comprehensive EDUCBA online courses. Successfully applied acquired skills to create a responsive Rent a Car website.
